REACH DECLARATION

Concerning the Product (trade name): **SABIC® PP PHC31 - in all colours**

Please note carefully that this declaration ONLY applies to customers that have purchased a product from SABIC Petrochemicals B.V. SABIC customers that ship SABIC products into the EU as importer of record are themselves responsible for any obligations under REACH. SABIC will not act as or appoint an Only Representative.

Dear Customer,

According to Article 2(9) of the Regulation (EC) 1907/2006 of December 18, 2006 and amendments (the latest consolidated version of the REACH legal text, dated 15 February 2021, and hereinafter referred to as REACH regulation), polymers are exempted from the Titles II (Registration of substances) and VI (Evaluation).

According to the requirements of Article 6(3) of the REACH regulation, any manufacturer or importer of a polymer that comprises more than 2% of (a) chemically bound monomer(s) in a volume exceeding 1000 kg per year has to register the monomer(s) used. We can inform you that **SABIC Petrochemicals B.V.** has successfully registered its monomer(s) used in the above-mentioned material under REACH.

Plastic materials, such as produced by SABIC are mixtures (preparations) (the polymer part, residual monomer, additives, etc.). According to the REACH regulation preparations do not need to be registered separately, provided that the individual parts of the mixture are (pre)-registered.

For substances used for which SABIC Petrochemicals B.V. is a Downstream User, and thus has no registration obligation itself, SABIC Petrochemicals B.V. has contacted its suppliers and confirmed that all their registration obligations under REACH have been met. SABIC Petrochemicals B.V. will not use any product or will do business with a supplier that is not in compliance with the REACH regulation. SABIC Petrochemicals B.V. has registered all substances for which it had a registration obligation, and will continue to ensure regulatory compliance with the REACH regulation.

It has to be noted that the REACH registration of the substance(s) subject to registration in this product is restricted to the product as manufactured or imported by **SABIC Petrochemicals B.V.** and cannot be used by any other party outside the supply chain.

We can further inform you that this material is not a dangerous preparation according to the requirements of the Regulation (EC) 1272/2008 on the classification, labelling and packaging of substances and mixtures and therefore is not subject to the requirements of Article 31(1) and (2) of the REACH regulation. Based on that, there is no legal obligation to set up a Safety Data Sheet according to the requirements of Article 31 (6) and Annex II of the REACH Regulation. Therefore, the Safety Data Sheet as supplied by SABIC, does not need to contain any mandatory information on the use of the material or other information derived from the REACH notification.

With regard to the presence of Substances of Very High Concern we can inform you as follows:

According to the recipe in the production of the above mentioned material, SABIC does not intentionally add:

- Substances of Very High Concern (SVHC), included in the most recent and authentic “Candidate List of Substances of Very High Concern for Authorisation”, in a concentration above the threshold limit of 0.1%, as published by the European Chemicals Agency (ECHA) on <http://echa.europa.eu/web/guest/candidate-list-table>, dated July 8, 2021.
- Substances subject to the provisions of Annex XIV or Annex XVII of EU Regulation (EC) 1907/2006.

Although these substances as such are not intentionally added to this material, and the absence has not been checked by tests, this does not exclude the presence of negligibly slight traces due to, amongst others, impurities in the components supplied by external parties and used in the production of such components.

This declaration applies to the material as it leaves its production facilities. It does not cover any substance(s) or preparation(s) subsequently added and/or in expert material processing or article fabrication further down in the supply chain.

Please note carefully that Regulations develop continuously and that SABIC declarations may be adapted accordingly. This declaration replaces all previous versions relating to this subject and product, and will be valid for a period of 1 (one) year, after which it will automatically expire.

If you have any further questions, or require any additional information on the above, please use the “[Contact Us](#)” form on the SABIC website. Select “[Regulatory](#)” as option under “[What is the nature of your inquiry](#)”. The form is available via <https://www.sabic.com/en/contact>.
